### ENORMOUS LOSSES DUE TO CONTINUED RAINS

Great damage has been done by the excessive, or rather by continued wet weather. Farmers in the County had only begun to harvest the soy bean crop, and hundreds of acres of cow peas were also unharvested when the rains began to fall about 18 days ago, since which date no weather of any consequence has been fair enough to cure these crops.

V. C. Elgin and Black & Barrass are perhaps the heaviest loosers in this immediate section. Mr. Elgin had his entire crop, of 30 acres or more cut when the rainy weather set in, and it is estimated, at the very lowest his loss will be, to say nothing of the hay, approximately \$2,-000, while Black and Barrass will sustain a loss of that sum, of not more, by loss of beans alone. It is claimed that the hay would have more than paid all expenses including rent for land, cultivation, harvesting and threshing of the beans. Hence the total loss to the two grow-\$2,500 each:

### \$2,000,000 IN WRECK MISSING

Nearly a year ago the steamship Port Hunter, carrying about \$5,000. 000 worth of army supplies, was sunk off the coast of Massachusetts in Vineyard sound. When salvaging operations began it was discoverced that only about \$3,000,000 worth of the supplies could be found. A congressional committee was appointed to investigate the loss. The officer in charge was examined but he declared that no one knew where the missing goods had gone. The only solution he had to offer was that mactically everyone in the vicinity had visited the wreck and it might be that some of these people could shed a little light on the matter.

Whisky sells all the way from 25 cents to 50 cents a drink.

### Yanks Good Patrons.

The saloonkeeper in this particular bar stated that the Sunday before he had taken in over \$300 from the sale of beer and whiskey alone, and that most of the patrons were Americans. The other saloons in the town had done an equally big business, so it is evident that several thousand American dollars are spent each Sunday in Lardeo alone.

Adjoining most of the saloons in Nuevo Laredo and Matamoras one finds rooms where there are , crap tables, monte tables, poker tables and roulette wheels, and these are always liberally patronized. The fascinating game of roulette invariably gets its full quota of victims, for the "boosters" who are always hanging about, soon inveigle one into the game if he does not voluntarily try his luck. A stranger at the roulette table generally wins the first time he puts his money on a number, a column, or a color. Then he is invited to have a bottle of beer or a drink of whisky, and later encouraged to try his luck again. And so it keeps on this way in the gaming room. A few weeks ago a wealthy oil operator from Tampico, while under the influence of liquor in a Nuevo, Laredo, gambling hall "bucked" a crap game and lost \$10,000. But this is only one instance of where Americans have lost heavily in "games" on the Mexican side of the Rio Grande.

### RADICALISM IN CHURCHES.

The churches are having their trouare agitating the people. Some of them of late have developed a tendency to pander to the radical and socialistic elements, while others are showing their conservatism by taking a firm stand against these elements. A considerable realignment is taking place in the religious field, just as in the political field. Quite a number of ministers and members are leaving certain churches and identifying themselves with others which more nearly fulfill their aspirations. This is agreed to be a critical time for the churches; some will emerge much stronger than before the war while others are making errors which will prove very costly to them.

### ORIGIN OF "DOG-DAYS."

Sirius, the "Dog star," is the brightest fixed star (though not the biggest.) The Romans called the period from July 3 to Aug. 11 "dogdays" because at that time Sirius and the sun were in same part of sky and the Dog star was supposed to add its power to that of the sun, thus causing the extra heat. The extra heat of summer, as we know, is due to the

# How Mat Cohen Spends Your Money

Facts for the Taxpayers of Kentucky

Mat S. Cohen, Commissioner of Agriculture and Democratic candidate for Secretary of State, employs more people in his department and spends more money than any other three combined departments of the State government. It is very important to the taxpayers, especially the farmers, how this money

In three years, Cohen's personal traveling expenses, which you taxpayers pay, have piled up to a total of \$4,153.93, an average of \$1,384.64 per year. In 1917 he charged you taxpayers \$5.00 per day for ten days for attending the State Fair in addition to railroad fare and a hotel and taxicab bill of more than \$100.00. Does anybody pay you to visit the State Fair?

Vouchers on file in the Auditor's office at Frankfort show what Cohen has been doing with your money. Below are a few samples of the extraversace of this man Cohen who four years are salemate.

money. Below are a few samples of the extravagance of this man Cohen who, four years ago, solemnly promised you taxpayers to spend your money carefully and economically:

COHEN CHARGES YOU EXTRA FOR DOING HIS JOB

The minute Cohen was elected to office he got the state legislature to raise his salary, but the legal department of the state ruled he could not have it. As Commissioner of Agriculture, Cohen is a member of all the boards in his department and his duty is to attend their meetings regularly as a part of the work for which you taxpayers pay him a salary. But Cohen charged you from \$5.00 to \$10.00 a day for attending meetings of various boards. The total you paid him for this was \$620.00 for 83 days, an average of \$7.44 per day. Easy money for answering "Here" at roll call.

Cohen was paid \$100.00 upon the order of the Variorinary Franchers' Board and it was charged to

age of \$7.44 per day. Easy money for answering "Here" at roll call.

Cohen was paid \$100.00 upon the order of the Veterinary Examiners' Board and it was charged to Veterinary License Fund. The Attorney General ruled the claim was illegal.

Certain clerks in Cohen's department draw money in addition to their salaries. One was paid \$36.00 meeting for attending four meetings of the Live Stock Sanitary Board. She draws a regular salary

of \$2,100.00 a year which you taxpayers pay. Can you beat it?

Another clerk gets a salary of \$1,200.00 a year and in addition she is paid an extra \$400.00 as clerk of the State Board of Veterinary Examiners. Pretty soft.

### WHAT'S IN THE STATE FAIR BOOKS?

On Oct. 6, the Republican State Campaign Committee asked the privilege of having the State Fair Books examined by certified public accountants. Cohen at first consented, but later denied the privi-lege. When threatened with a law suit, he said he would submit the request to a meeting of the State Board of Agriculture, Oct. 25, a few days before the election. The books of the State Fair belong to the taxpayers who contribute huge sums of money each year to help keep it going.

Among other items in those books are vouchers showing Mat Cohen's personal expense account. Why does Cohen object to an immeliate examination of those books?

machine politicians, aided and abetted by the hundreds of useless officedate for Governor, has been going votes. Six hundred Democrats in a greatly increased majority. forward for some time. Only recently, however, have any of them dared to make public their slanders. Mat Cohen, present Democratic Commissioner of Agriculture, who is now the Democratic candidate for Secretary of State, in a recent public address, uttered vague slanders against Mr. Morrow.

"Methods of this kind are certain evidences of desperation. thought they had been outlived in all civilized countries. The cause must indeed be tottering that has to be sustained by such unworthy methods. But, to those of us who live here in Somerset and have known Ed Morrow all of his life; who have watched his career as a successful student and brilliant lawyer; to those of us who daily touch hands and hearts with him, who have seen his daily life and know him thoroughly; to those of us who know of his devotion to his father and mother while they were living, of his beautiful married life, of his kindness as a husband, and indulgence as a father; to those of us who know of his bigness of heart and the cleanliness of his life: to those of us who know the man as he really is, this slander propaganda and these yelps from whipped curs are no more than laughable little jokes.

"But, to those who have not had the pleasure of knowing Ed Morrow so intimately, we ask you to come to Somerset and investigate for yourselves. Ask any officer of either of our three banks; ask the minister of Somerset Commonwealth, published any church in Somerset; ask the business men, Democrat or Republican; ask any school child; ask any of the hornyhand sons of toil; ask any of railroad shops; ask anybody in Somerset about Ed Morrow and he will cheerfully abide by the answer!

# THE NEW EDISON

## The Three Million Dollar Phonograph

THOMAS A. EDISON invented the phonograph in 1877. After he improved his original phonograph to a point where his business advisers said to him: "You now have the best phonograph in existence. Let's go ahead and make it."

Mr. Edison shook his head and replied: "I am not going to put out a new phonograph until it is so perfect that its reproduction of music cannot be detected from the original music."

Thomas A. Edison spent three million dol-

lars in cold cash to develop an instrument which matched the human voice and all kinds of musical instruments so perfectly that the original could not be told from the reproduction-or RE-CREATION, as it is now called.

We are prepared to sell you today for \$285, an exact duplicate of Edison's three million dollar phonograph. You may have extended payments if you desire that accommodation. First of all, however, we want you to hear this wonderful new instrument.

May we have the pleasure of demonstrating to you that Music's RECREATION is a reality and not merely fanciful phrase?

with the living and am in good health, am now living in California. Commonwealth of Kentucky: Ohio where we have beautiful sunshine and a delightful climate, where evergreens and flowers are to be had twelve months in the year, where fruits and vegetables of all kinds are grown and ready for use in the cold, dreary months of countries of colder climates. For this special reason, this is one of the most attractive places on the face of the Globe. Now, the land in Southern California, in my opinion soars higher.
